NATURE'S TENT BUILDERS.

Pictures by Dr. R. L. Ditmars, Curator of the New York Zoological Park. Little known facts about life history of the destructive Caterpillar Moth are revealed in the series of fascinating pictures, with explanatory titles, by one of America's foremost naturalists; shows the natural history of the moth, its transformation from larva to butterfly, how it spins and feeds and protects itself, and man's methods of fighting it. Is recommended for school use.
